

**MUNICIPAL WATER DISTRICT OF ORANGE COUNTY
DIRECTOR, DIVISION 7**

DONALD FROELICH

OCCUPATION: Water Quality Manager

With over 30 years of experience in the public water supply business, my goals will be to make sure the Municipal Water District of Orange County has an adequate supply of good quality water, while keeping the costs low.

Profession Experience:

Ten years as city water system manager serving over 200,000 people responsible for water quality, engineering, operation, maintenance, and finances; Twenty years as Civil Engineering supervisor with the Metropolitan Water District of Southern California responsible for planning water supplies and facilities for Orange County and other parts of southern California; Ten years elected Water Board director serving as President, Vice President, and Engineering Committee Chair.

Education:

Bachelor and Master Degrees in Civil Engineering;
California Registered Civil Engineer;
California College Teaching Credential in Engineering;
Law degree and member, California Bar.

Community Activities:

Adjunct Professor, Santiago Canyon College teaching water utility science;
Member, Oversight Committee for the Saddleback Valley Unified School District recently approved bond issue;
Director, local homeowners association.

My years of professional experience in the water industry, education, and community service will be valuable to ensure that this region's critical water supply is well managed-today and into the future.

Thank you for your consideration.
